

# A SURVEY ON 'POINT-OF-CARE ULTRASOUND (POCUS) IN IRELAND'

*QR code for Point-of-Care Ultrasound in Ireland Survey*

## Information

This survey is aimed at healthcare professionals (outside of the typical radiology setting) using, seeking to use, contemplating using, reluctant to use or wanting to know more about point-of-care ultrasound. Your responses are useful to us whether you use or do not use ultrasound.

The aim of the study is to establish the scope of POCUS use in Ireland. The study aims to find out the prevalence of POCUS use in Ireland, the clinical applications of POCUS as well as educational and accreditation opportunities available to POCUS users.
